

Director: Andrzej Horban, MD

Warsaw's Hospital for Infectious Diseases, founded in 1881, is one of the oldest hospitals in Warsaw. Our continuous development and highly trained and qualified staff allowed us to work with unique combination of knowledge, equipment and experience. Our medical staff are world famous specialists on their fields. Thanks to that we are able to provide complex health care of infectious diseases including Hepatitis(A, B and C), cirrhosis of the liver and tropical diseases. The hospital consists of 7 wards, intensive care ward and daily ward.

If you require any further information regarding our medical services please contact us:

- E-mail: info@zakazny.pl
- Telephone: 0048 22 33 55 351-355
- Postal Address: 37 Wolska st, 01-201 Warsaw, Poland

Since 1990 our hospital serves also as a **AIDS Diagnostis and Therapy Centre** which takes care of HIV / AIDS patients.

If you require any further information regarding AIDS Diagnostis and Therapy Centre please

contact us:

- E-mail: ppl@zakazny.pl
- Telephone: 0048 22 3358101-102
- Postal Address: 37 Wolska st, 01-201 Warsaw, Poland

Except for medical services, our hospital has several high-standard laboratories which offers wide range of clinical tests and analysis. Depending on your needs, please contact one of the following laboratories:

- Central Analytical Laboratory ([LINK](#))
- Molecular Diagnostics Laboratory ([LINK](#))
- Parasitology Laboratory ([LINK](#))
- Mycobacteriology Laboratory ([LINK](#))
- Patomorfology Laboratory ([LINK](#))

We always strive to improve our services - if you have any ideas on how to do it please tell us.
